

MXB 1.0R2

New features

- C-scan imagery of pitch-catch BondMaster probes;
- Up to 8 frequency;
- Phase or Amplitude displays;
- Setup Wizard;
- Normalization of all 8 frequencies;
- Live and Inspection (encoded) modes;
- Cursors allow to size indications;
- Streamlined Bond Testing interface.

Resolved issues from previous version

(MXB 1.0R1 was not released on web site)

- Removed need to activate Bond testing option (always active);
- Added palette files AMPLITUDE.pal and PHASE_SPECTRUM.pal;
- Added factory-loaded Hand Scanner setup file.
